1. Ask students how make comparisons in English and French.
2. Give out set of cards to each pair/group.
3. Tell students that they have to change each adjective into a comparative adjective and make a sentence.
4. Give students 10 minutes to see how many cards they can go through. One person in each pair/group should write down their sentences.

6. As a wrap-up, elicit some of the sentences and give corrective feedback as necessary.
