

Abrami, P.C., Lou, Y., Chambers, B., Poulsen, C., & Spence, J. (2000). Why should we group students within-class for learning? *Educational Research and Evaluation*, 6(2), 158-179.

### **ABSTRACT**

Reviews research concerning within-class grouping of students for learning and addresses some issues related to the integration of research on small group instruction raised by S. Prais (1998, 1999). Elaborates on pedagogical techniques that encourage effective small group instruction. (SLD)
